

COPPER'S CREEK

OUTFITTERS

There is a Place...

In Illinois where the Mississippi runs west, where corn and soybean fields intermingle with stands of valleyed rolling timber and the true "Monster of the Midway" exist. Those with passion come to see us year and then, most come back again. Returning to pursue mega bucks that live unpressured by the masses in an environment that has been called "a Paradise."

It is here in Rock Island and Mercer counties that we have lived and farmed for over fifty years. As we enter our 6th year, we still strive to deliver your chance of a lifetime. "The ultimate fair chase hunts in the world," "The time of my life," "Unbelievable," and "The best kept secret in Illinois," are how some describe their experience and why we continue. Please call and talk to us and contact those who have hunted here. Ask why they return to us, even after hunting elsewhere. Many are here to follow a dream. A dream that flows through...
